Davne 1921. godine, državna visoka Policijska škola pod upravom znamenitog kriminaliste i prijatelja Srbije, dr Rodolfa Arčibalda Rajsa, bila je jedina visokoškolska institucija koja obrazuje kadar isključivo za potrebe policije. Danas je to Kriminalističko-policijska akademija, koja nastavlja srpsku tradiciju visokog policijskog obrazovanja, primenjujući savremeni model obrazovanja modernog i efikasnog kadra za potrebe policije i drugih bezbednosnih subjekata, uz poštovanje evropskih i svetskih standarda. Kao visokoškolska ustanova koja treba da obezbedi razvoj i projekciju kadra za potrebe policije, Akademija je akreditovala sledeće studijske programe: osnovne strukovne studije kriminalistike, osnovne akademske studija kriminalistike, diplomatske akademske studije kriminalistike i specijalističke akademske studije kriminalistike. U prethodnim godinama odškolovalo je nekoliko hiljada studenata, koji danas sa uspehom obavljaju najodgovornije zadatke u Ministarstvu unutrašnjih poslova Republike Srbije i drugim subjektima bezbednosti. Zahvaljujući tome, Akademija je svrstana u red uglednih evropskih visokoškolskih institucija u svojoj oblasti.

In 1921, the State Police School, directed by the famous criminalist and friend of Serbia, Rodolphe Archibald Reiss, PhD, was the only higher education institution that educated staff exclusively for the police purposes. Today, this is the Academy of Criminalistic and Police Studies, which continues the tradition of Serbian police higher education, by implementing contemporary model of education of modern and efficient personnel for the needs of the police and other security institutions, with respect to European and international standards. As a higher education institution which should ensure the development and planning of personnel for the needs of the police, the Academy accredited the following study programmes : undergraduate professional (vocational) studies in criminalistics, undergraduate

academic studies in criminalistics, graduate academic studies in criminalistics and specialist academic studies in criminalistics. In previous years, several thousands of students graduated from the Academy, and today they successfully perform the most responsible tasks in the Ministry of Interior of the Republic of Serbia and other security institution. As a result, the Academy is classified among prominent European higher education institutions in its field.
